

## ANTI - SLIP TREAD COVERS

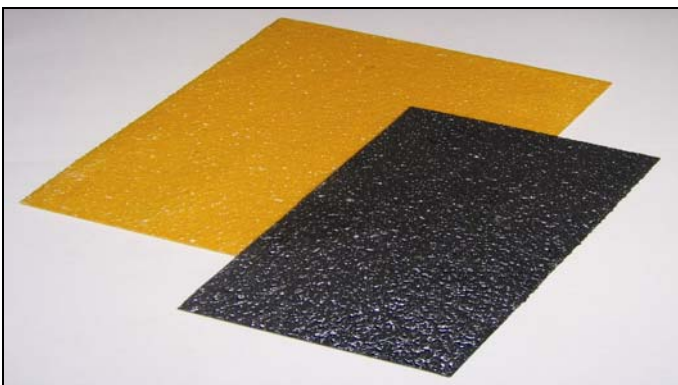

**Anti-Slip Tread Covers** are an easy and cost effective way to provide superior slip resistance on stair ways. They are extremely durable and completely corrosion resistant. They have a contrasting nosing for high visibility. Tread covers can be cut and drilled if required to your exact specification. Internal and external adhesives are available to complete the installation. Landing areas also available utilising our fibreglass plate. Our tread covers have a gritted surface and conform to BS 7976-2 2002 Slip Resistance Test. covers and plates have achieved a rating considered to be "Better than excellent".

Tread Covers can be cut to any size up to a maximum of 3000mm long x 300mm going.

Up to 1000mm £16.00 each  
Up to 1500mm £24.00 each  
Up to 2000mm £32.00 each  
Up to 3000mm £48.00 each  
Internal adhesive £4.00 310ml tube

External adhesive £6.50 310ml tube. All prices are plus delivery and VAT

4mm gritted plate is available from stock in 2m x 1m and 2.44m x 1.22m panels. 4mm plate is priced at £60.00 and £90.00 respectively in yellow or black.

Use plate to compliment your tread covers on landing areas etc.

Tread covers and plate can be cut, drilled and c/sunk free of charge.

If you are using adhesive, please make sure the surface is clean and dry. External adhesive is fast curing. You will have a maximum of 30 minutes depending on temperature. If you require your tread covers and plate to be pre-drilled please let us know what screw size you are using.
